PROFILE

Self-taught Frontend Developer with strong knowledge of HTML, CSS, JavaScript, and React, complemented by hands-on experience in building responsive, interactive web applications. Skilled at translating designs into functional user interfaces and integrating APIs for dynamic content. Bringing over 5 years of experience in precise technical work as a science laboratory technician, ensuring high attention to detail, problem-solving, and efficient workflow management. Currently building a portfolio of live React projects and seeking a junior developer position to contribute to innovative web solutions.

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, JavaScript (ES6+), React, JSX, Responsive Design, Tailwind CSS
- State Management: React Hooks, Context API, Redux Toolkit (basic)
- Tools & Platforms: Git, GitHub, VS Code, npm, Netlify, Vercel
- APIs & Backend Basics: REST APIs, Fetch/Axios, JSON
- Other: TypeScript (basic)

WORK EXPERIENCE

Infocus Consultants Limited | London, UK

Salesforce Administrator

MARCH 2021 – JAN 2023

- Managed and maintained Salesforce instances, including user setup, security, and data management for clients.
- Created and customized objects, fields, layouts, and record types to optimize business processes, resulting in an increase in efficiency.
- Developed and implemented workflow rules, validation rules, and process builder to automate tasks and increase efficiency, resulting in reduction in project timelines.
- Analyzed business requirements and translated them into Salesforce solutions, resulting in an increase in user adoption.
- Provided training and support to end-users to ensure adoption and optimal use of Salesforce.

Various Schools | London, UK

Science Technician

JULY 2016 – AUG 2019

- Maintained laboratory equipment and supplies, ensuring their availability for experiments.
- Communicated findings and recommendations to team members, leading to process improvements.
- Assisted with data management and analysis, ensuring accurate and timely reporting.
- Provided practical demonstrations for students in classrooms.

National Institute of Occupational Health | India

Project Assistant

JULY 2012 – JUNE 2015

- Assisted in conducting experiments and gathering data, following laboratory protocols and safety guidelines.
- Prepared and maintained laboratory equipment materials for experiments.
